**THE UNIVERSITY OF ZAMBIA
SCHOOL OF MEDICINE/NURSING SCIENCES/HEALTH SCIENCES
END OF YEAR EXAMINATION
2022/2023 ACADEMIC YEAR**

DME 1115: COMMUNICATION, PROFESSIONALISM AND STUDENT SUPPORT

Time Allowed: Three hours

Total Marks: 120

Date: 1st November, 2023

Computer number: _____

Program of study: _____

INSTRUCTIONS TO CANDIDATE

1. The examination paper has two sections
2. Answer **all** questions.
3. Follow instructions pertaining to each section carefully.
4. Write your computer number on the question paper and answer booklet.
5. Write in a legible handwriting.

DO NOT TURN OVER UNTIL YOU ARE INSTRUCTED

SECTION A: MULTIPLE CHOICE QUESTIONS - Circle the One Best Answer (100 Marks)

1. A computer works through the interaction of Software and Hardware. Which of the following are the two major categories of software?
 - A. Drivers and Application Software
 - B. System and Application Software
 - C. Operating System and Driver Software
 - D. System and Mobile Software
2. A computer is an electronic device that takes in input, processes it, outputs it, and/or stores it. Which of the following comprise input for a computer?
 - A. Information and Data
 - B. Information and Keyboard
 - C. Data and Computer Programs
 - D. Keyboard and Mouse
3. A computer only understands and works with binary language. Two most common schemes for encoding text into binary format are Unicode and ANSI (or ASCII). How many bytes are required to encode a character in either scheme?
 - A. Unicode 16 bytes, ANSI 8 bytes
 - B. Unicode 8 bytes, ANSI 16 bytes
 - C. Unicode 2 bytes, ANSI 1 byte
 - D. Unicode 1 byte, ANSI 2 bytes
4. Lisa works as an administrative assistant at a certain Clinic in Lusaka. She recently acquired an information system to record patient visits for OPD and Lab. Unfortunately, after six months of records, she noticed that the application was becoming very slow. Which three computer components involved in processing should Lisa consider upgrading to improve performance?
 - A. Harddrive, CPU, RAM
 - B. Flashdrive, CPU, RAM
 - C. Harddrive, CPU, ROM
 - D. Internet, CPU, RAM
5. Lisa is an administrative assistant at a clinic in Lusaka. She recently filed a complaint with the IT department that her computer that she uses for recording patient visits was becoming very slow. Upon investigation, IT support staff discovered that she had installed many suspicious programs, including games, and supposed PC cleaning programs. What type of virus is Lisa at risk of having from such programs that appear useful?
 - A. Worm
 - B. Trojan horse
 - C. Email virus
 - D. The Virus
6. Which of the following statements is true about open-source software?
 - A. Open-source software is software freely downloadable on the internet
 - B. Open-source software is software written in a language very common
 - C. Open-source software is software whose source code is freely available to anyone
 - D. Open-source software is software whose setup is freely available to anyone

7. Which of the following statements is true?
- A. The Linux operating system is an example of open-source software
 - B. A modem is an example of a network
 - C. A free antivirus is an example of open-source software
 - D. The internet in an office is an example of a local area network
8. The following is a screenshot of a computer's device information that one can obtain on a Windows device by right clicking on "This PC" then selecting "Properties". How many *fetch-decode-execute* cycles can this computer perform per second?
- DESKTOP-S4O8DG6
Latitude 5410

 Device specifications

Device name	DESKTOP-S4O8DG6
Processor	Intel(R) Core(TM) i7-10810U CPU @ 1.10GHz 1.61 GHz
Installed RAM	32.0 GB (31.6 GB usable)
Device ID	4D277CFD-0591-4FEF-A2D1-7C8C2E3281FF
Product ID	00330-50772-23420-AAOEM
System type	64-bit operating system, x64-based processor
Pen and touch	No pen or touch input is available for this display

- A. 64
 - B. 32
 - C. 1.10
 - D. 1.61
9. When you use a word processing application, such as Microsoft Word, to write a letter or report, the text that you type is treated by the computer as:
- A. Information
 - B. Data
 - C. Instructions
 - D. All the above
10. Which of the following statements is true?
- A. A computer cannot work without application software.
 - B. A computer cannot work without system software.
 - C. A computer cannot work without drivers.
 - D. A computer cannot work without mobile software.
11. Communication is not always easy, it could have barriers. All of the following are barriers EXCEPT:
- A. The nurse being tired
 - B. The patient being tired
 - C. The nurses knowledge in communication skills
 - D. The patients knowledge in communication skills

12. Communication directed towards the patient to identify his current health problems, plan, implement and evaluate the action taken is referred to as:
 - A. Therapeutic Communication
 - B. Cross-cultural communication
 - C. Facilitating communication
 - D. Evaluation communication
13. Which of the following is not an aspect of cross-cultural communication?
 - A. One's customs and illness
 - B. One's customs and values
 - C. One's customs and gender
 - D. One's customs and clothing
14. Inability to accept another cultural view is referred to as:
 - A. Discrimination
 - B. Stereotyping
 - C. Ethnocentrism
 - D. Stigma
15. One of the principles of communication is that, a message should include all facts the patient needs for the reaction desired. This is a principle known as:
 - A. Conciseness
 - B. Completeness
 - C. Concreteness
 - D. Clarity
16. The theory in which learners try to recall their background knowledge along with their linguistic knowledge in order to comprehend what is being said is called:
 - A. Cognitive theory
 - B. Behavioural theory
 - C. Schematic theory
 - D. Listening theory
17. You have to read a leaflet that is handed to you in the street. Which reading technique will you use?
 - A. Skimming
 - B. Scanning
 - C. Detailed
 - D. Intensive
18. What do you skip while skimming?
 - A. Details
 - B. Bold words
 - C. Headings
 - D. Graphs or pictures
19. You have to find out if a job advert is relevant to you. Which reading technique will you use?
 - A. Skimming
 - B. Scanning
 - C. Detailed
 - D. Survey

20. If a student does not understand what they read, what could they do?
 - A. Skip it
 - B. Ask the teacher
 - C. Reread it
 - D. Recall it
21. Which of the following IS TRUE about eye gaze during listening?
 - A. It requires a verbal component
 - B. It requires a cultural universal behaviour
 - C. It does not occur with a long with body posture
 - D. It is culture specific
22. Which of these is not a deterrent to the listening process?
 - A. Lack of interest
 - B. Ego
 - C. Confidence
 - D. Fear
23. Which of these types of listening lacks depth?
 - A. Appreciative listening
 - B. Superficial listening
 - C. Focused listening
 - D. Evaluative listening
24. Which type of listening is followed by skilled listeners?
 - A. Focused listening
 - B. Attentive listening
 - C. Evaluative listening
 - D. Emphatic listening
25. The rules that guide the courteous conduct of an individual in a profession refers to:
 - A. Ethics
 - B. Etiquette
 - C. Virtue ethics
 - D. Legislations
26. The moral principles that guide health professionals' as they attempt to provide the best-principled care to clients is:
 - A. Etiquette
 - B. Ethics
 - C. Healthcare ethics
 - D. Ethical values
27. The following is true about academic writing:
 - A. Academic writing combines diverse views.
 - B. It collects information only from websites, libraries, books, and peer-reviewed articles to ensure it presents facts.
 - C. It shows what the writer knows about a topic with minimal consideration to what others know about the same topic.
 - D. It is writing that is time consuming

- A. A sentence contains a subject and a verb but not an object.
 - B. A sentence without an adverb is incomplete.
 - C. In a sentence, the verb governs the subject.
 - D. A sentence should be long
29. I am eager to go home after this intensive academic session. 'After this intensive academic session' is an example of:
- A. A noun clause
 - B. A main clause
 - C. An independent clause
 - D. A subordinate clause
30. Studying is not fun. 'Studying,' from the sentence is:
- A. A verb
 - B. A gerundive
 - C. A subject
 - D. An object
31. The following statement is true about paraphrasing:
- A. A paraphrase retains the original words but adds the writer's different meaning
 - B. A paraphrase uses other words to retain the original meaning
 - C. A paraphrase reduces the word length
 - D. A paraphrase should be conclusive
32. Immediately I saw the exam papers, my heart started beating wildly. This is an example of:
- A. A complex sentence
 - B. A simple sentence
 - C. A complex-compound sentence
 - D. A compound sentence
33. One difference between summarizing and paraphrasing is:
- A. Paraphrasing condenses the ideas while summarizing shortens them.
 - B. Paraphrasing captures the main ideas while summarizing condenses the ideas using own words.
 - C. Summarizing captures the main ideas while paraphrasing captures the original meaning using own words.
 - D. All the above
34. All but one is incorrect about choosing a topic:
- A. Choose a topic you find interesting.
 - B. Choose a topic that has minimal materials because it makes your writing unique.
 - C. Choose a topic of interest to your readers despite your dislike of the subject.
 - D. Choose a topic that is unfamiliar
35. Immediately I saw the exam papers, my heart started beating wildly. Immediately is an example of:
- A. A subject
 - B. A verb
 - C. An adjective
 - D. An adverb

COMPUTER NO.....

36. The composing stage includes the following ordered steps:
- A. Conduct research, narrow topic, develop thesis, organize ideas, and write first draft
 - B. Narrow topic, develop thesis, conduct research, organize ideas, and write first draft
 - C. Develop thesis, narrow topic, conduct ideas, organize ideas, and write first draft
 - D. Conduct research, develop thesis, narrow topic, organize ideas, and write first draft
37. Choose the correct statement from the following:
- A. The steps during the inventing stage are sequential
 - B. The steps during the composing stage are sequential
 - C. The steps during the revising stage are sequential
 - D. The steps during the proofreading stage are sequential
38. Sonji wrote an essay on the advantages of effective listening skills. From the following patterns, choose the correct pattern that Sonji used to organize her body paragraphs.
- A. General information, focusing direction, getting more specific, supporting details, and conclusions
 - B. Focusing direction, general information, supporting details, getting more specific, and conclusions
 - C. General information, getting more specific, focusing direction, supporting details, and conclusions
 - D. Focusing direction, supporting details, getting more specific, general information, and conclusions
39. Each body paragraph in Sonji's essay contains the following information except:
- A. Supporting sentences to explain or develop the point
 - B. A thesis statement to explain the idea
 - C. A topic sentence to express the controlling idea
 - D. Evidence from the reading or examples drawn from the subject area
40. 'Communication, like drawing, is all about taking time to master the process. In other words, mastering communication does not occur in a day. Furthermore, it involves skills that require daily practice as well as dedication.' Identify the number of transitions in the passage.
- A. 2
 - B. 3
 - C. 4
 - D. 5
41. Conclusions could do the following except:
- A. Resolve opposing viewpoints
 - B. Reiterate the thesis statement
 - C. Do not restate the importance of the topic to avoid repetition
 - D. Include a call for action
42. The step of the writing process categorized as 'make it correct' is the:
- A. Prewriting step
 - B. Revising step
 - C. Proofreading step
 - D. Publishing step

43. The words that tell a student what to do with a topic is classified as:

- A. Content words
- B. Direction words
- C. Delimiting words
- D. Analyzing words

44. A good study habit includes all except:

- A. Demotivation
- B. Concentration
- C. Goal setting
- D. Continuity

For questions 45 – 50 refer to the situation below:

Mutale is a first-year natural science student, who used to be in the top band of his class in his former school. He is the class representative, plays football, and recently accepts to coach the grade nines in his former school. He rarely says no to his friends who always seek his help. He recently becomes tired and falls asleep with book piles beside his head. He turns late or misses classes while attempting to complete his assessments. He rushes to the library almost as it is about to close because he forgot about an assignment he will submit the following day. The assignment topic is 'justify why you consider public health an essential aspect of medical training.'

45. 'Mutale becomes tired and falls asleep with book piles beside his head' is an example of:

- A. Physical barrier
- B. Mental Barrier
- C. Tiredness
- D. Weariness from hard work
- E. Emotional barrier

46. Mutale is a first-year natural science student, who used to be in the top band of his class in his former school. 'Mutale is a first-year natural science student' is:

- A. Predicate
- B. A subject
- C. A subordinate clause
- D. An independent clause

47. Mutale is an example of:

- A. An action word
- B. A function word
- C. A key word
- D. A signal word

48. 'The assignment topic is "justify why you consider public health an essential aspect of medical training."' 'Justify' means to:

- A. Cite the opinions of experts
- B. Provide good reasons for one's decisions
- C. Describe the main ideas
- D. Provide concrete examples

49. With all the academic engagements that surround Mutale as a natural science student, he should not have joined the football team. Based on what you learned, is the statement true or false?

- A. True

- B. False
50. Two things that Mutale can do to alleviate his study and time management problems include:
- A. Setting non achievable goals and focusing on his study
 - B. Avoiding his friends and attending classes
 - C. Setting achievable goals and joining an academic club
 - D. Prioritizing and saying no at times
51. The E in the mnemonic TILE refers to:
- A. Example
 - B. Evaluate
 - C. Examine
 - D. Explain
52. A word that directs a writer to identify similarities and differences is:
- A. Contrast
 - B. Compare
 - C. Contradict
 - D. Criticize
53. In the SQ3R strategy for study reading, 'S' refers to:
- A. Study
 - B. Strategy
 - C. Survey
 - D. Simple
54. An example of mental barrier to listening is all but one:
- A. Lack of knowledge
 - B. Hard work
 - C. Positive prejudice
 - D. Noise
55. Non-effective listening skills include:
- A. Ignoring distractions
 - B. Reinforcing the feedback
 - C. Allowing personal prejudices
 - D. Observing voice inflections and body language
56. A student becomes a critical thinker when:
- A. The student reads and uses every idea relating to their topic
 - B. Figures out the ideas to discard or use
 - C. The student does not bother about other perspectives to avoid confusion
 - D. Narrows the topic and provides only details that do not oppose own ideas
57. The in-text citation in Harvard referencing style includes:
- A. Author's surname and publication year
 - B. Author's surname, the initials, and publication year
 - C. Author's first name, surname, initials and publication year
 - D. Author's first name, surname, and publication year

COMPUTER NO.....

58. Kaweme informed his classmates that only thirty percent of the students obtain a pass in DME1115. This is an example of:
- A. A statement of fact
 - B. A verifiable statement
 - C. An opinion statement
 - D. A verified statement
59. The reasoning principles that allow a student to distinguish between correct and incorrect reasoning is:
- A. Reasoning
 - B. Analysis
 - C. Logic
 - D. Critical thought
60. Deductive reasoning is a type of reasoning that:
- A. Proceeds from the specific observations to the general conclusions
 - B. Proceeds from the general ideas to specific conclusions
 - C. Links entities that had no common origin
 - D. Formulates conclusions from observations
61. Stella is repeating DME115. During her group's preparation for a presentation, Titus told the group, 'before you listen to Stella, I should remind you that she is repeating DME115.' This is an example of:
- A. Hasty generalization fallacy
 - B. False analogy fallacy
 - C. False authority fallacy
 - D. Ad Hominem fallacy
62. The types of report you studied in DME1115 include:
- A. Informative, accident, lab and process reports
 - B. Lab, process, and journalistic reports
 - C. Informative, process, and investigative reports
 - D. Process, investigative and lab reports
63. Identify the correct statement(s) from the following:
- A. A report contains an acknowledgement while an essay does not
 - B. An essay and a report must have a table of contents
 - C. An essay and a report may contain a reference list
 - D. A report should not include a questionnaire under the appendix section
64. The alphabetical arrangement of technical terms with definitions in a report is known as the:
- A. References
 - B. Glossary
 - C. Appendix
 - D. Abbreviations
65. Consent comprises of the following three components:
- A. Voluntariness, Implicit and explicit consent
 - B. Disclosure, implicit and explicit consent
 - C. Capacity, voluntariness and competence
 - D. Disclosure, competence and voluntariness

66. A good report must have all these qualities except:
- A. Clarity
 - B. Coherence
 - C. Cognition
 - D. Completeness
67. An address given verbally is known as:
- A. Verbal communication
 - B. Para communication
 - C. Oral presentation
 - D. Addressing
68. The ethical theory that maximizes happiness or good to the majority is known as:
- A. Consequentialism
 - B. Beneficence
 - C. Utilitarianism
 - D. Virtue ethics
69. The 'autonomous authorization of a medical intervention ... by individual patients' is known as:
- A. Autonomy
 - B. Beneficence
 - C. Medical ethics
 - D. Consent
70. Visual aids help to make a presentation do the following:
- A. Enhance remembrance
 - B. Help the audience stay unfocused
 - C. Enable the speaker to present easy information
 - D. Distract the audience
71. Consent involves the following:
- A. Explicit consent

- A. Force
 - B. Coercion
 - C. Manipulation
 - D. External factor
77. 'Look here, I said to the child, we are going to look at your throat. You're old enough to understand what I'm saying. Will you open it now by yourself or shall we have to open it for you? This statement is an example of:
- A. Advocacy
 - B. Force
 - C. Manipulation
 - D. Coercion
78. In the story, "Indian camp," Nick asked his father to help the pregnant woman. The doctor responded: 'No. I haven't any anesthetic,' his father said. 'But her screams are not important. I don't hear them because they are not important.' The doctor's response indicates:
- A. Beneficence
 - B. Accountability
 - C. Autonomy
 - D. Ethical dilemma
79. Mrs. Phiri is a pregnant woman with a history of congenital heart condition. The pregnancy has a high risk of worsening her condition and the baby could develop heart condition. Mrs. Phiri's religious belief does not favor abortion, which the doctor explains to be the most appropriate treatment option. This is an example of:
- A. Medical morality
 - B. Ethical paradox
 - C. Disclosure
 - D. Autonomy
80. The desired state that every patient and clinician, including everyone wants to enhance is known as:
- A. Eudaimonia
 - B. Etiquette
 - C. Values
 - D. Happiness
81. 'Do no harm' refers to what ethical principle?
- A. Beneficence
 - B. Autonomy
 - C. Non-maleficence
 - D. Hippocratic oath

82. The ethical rules that guide information provision and sharing between clinicians and their clients include:
- A. Consent and truth telling
 - B. Voluntariness and confidentiality
 - C. Capacity and competence
 - D. Confidentiality and competence
83. The best way to promote healthcare accountability is through:
- A. Litigation or the legal system
 - B. Legislative processes
 - C. Transparency and partnership
 - D. Ethical observances
84. Baby Precious was born at Mukewa Medical Center with a non-isolated clubfoot disorder that needed surgeries. Mukewa Medical Center lacks the expertise and equipment to correct the abnormalities. Dr. Shamboka took it upon herself to make the Ministry of Health aware of the baby's condition. In partnership with surgeons, pediatricians and other medical experts from various hospitals in the Province, the surgeries were conducted successfully without any cost to the parents. Dr. Shamboka exhibited, primarily:
- A. Caring
 - B. Advocacy
 - C. Accountability
 - D. Ethics
85. Kunda needs a job at Panda Petrol. He attaches his cover letter and resume to an email that he sends to the manager. Another term for a cover letter is:
- A. Curriculum vitae
 - B. Motivation letter
 - C. Application letter
 - D. Sell yourself letter
86. On his way to the interview venue, Kunda chooses the ----- that leads him directly ---
- A. Root, their
 - B. Route, their
 - C. Route, there
 - D. Root, there

- A. Request memo
 - B. Announcement memo
 - C. Self-protection memo
 - D. Confirmation memo
88. The manager decides to call a meeting to settle the issues. He sends out information concerning the venue, purpose and time of the meeting. This is called:
- A. A notice
 - B. Agenda
 - C. Memo
 - D. A circular

89. Kunda ----- the case was simple and might ----- to the manager sacking his supervisor.
- A. Thinks, lead
 - B. Taught, led
 - C. Thought, lead
 - D. Thought, led
90. Which of the following is the best way to avoid plagiarism?
- A. Cite all sources correctly
 - B. Paraphrase or summarize information from sources in your own words
 - C. Use quotation marks around direct quotes
 - D. Do all of the above
91. Which of the following is NOT a key step in evaluating information for academic writing?
- A. Defining the research question
 - B. Accessing and searching for information
 - C. Evaluating the credibility of sources
 - D. Copying and pasting information from the internet
92. What is the main purpose of citing and referencing in academic writing?
- A. To give credit to the original author
 - B. To avoid plagiarism
 - C. To show off one's knowledge
 - D. To confuse the reader
93. What is the difference between plagiarism and copyright infringement?
- A. Plagiarism is the unauthorized use of someone else's words, while copyright infringement is the unauthorized use of someone else's ideas.
 - B. Plagiarism is the unauthorized use of someone else's ideas, while copyright infringement is the unauthorized use of someone else's words.
 - C. Plagiarism and copyright infringement are the same thing.
 - D. Plagiarism and copyright infringement are not related
94. Which of the following is a digital referencing tool that can help with citation and referencing in academic writing?
- A. Google
 - B. Wikipedia
 - C. EndNote
 - D. MLA format generator
95. Which one of the following is NOT an ethical and legal issues when using information?
- A. Plagiarism
 - B. Intellectual Property
 - C. Primary Sources
 - D. Copyright
96. Which one is a common criteria for evaluating information sources?
- A. Authority
 - B. Accuracy
 - C. Objectivity
 - D. All of the above

97. How can you avoid predatory publishers?
- By not trusting anyone
 - By publishing always with the same publisher
 - By checking widely accepted sources like Beall's list
 - By using Think. Check. Submit. check list
98. Which one of the followings is defined in this sentence: "It requires a more comprehensive search strategy and it consists of identifying search items, using boolean operators, advance search techniques and building a query."
- Simple search
 - Following a thread
 - Snowballing
 - Systematic search
99. On the Moodle eLearning platform, students can do the following except?
- Take part in forums and chats
 - Upload tests
 - Follow lessons
 - Upload lessons
100. You are preparing a lab report and are not coming up with what you know to be the correct answers. You continue to figure out your calculations hoping that you have just made a calculation mistake. After a few tries, you determine that the problem just isn't working out. You decide to falsify some of the numbers so that you get what you know to be the correct answer.
- You are responsible for academic misconduct.
 - You believe that if the professor realizes that you falsified the numbers to get the correct answer, he will understand that you at least tried and that is all that counts.
 - You are responsible for fabrication.
 - This course has nothing to do with your future career goals so what is the sense of mastering the course.

SECTION B: True/false**[20Marks]**

Instructions: Indicate whether each statement is true or false in FULL by writing on the spaces provided.

- The statement, 'the more the fixations, the faster one reads' is:
- Phronesis does not accept a rigid application of rules.
- Competence refers to the patient's ability to misunderstand the information provided by the clinicians and the consequences of the decisions.
- Manipulation is the use of explicit or implicit threat to ensure treatment.
- Confidentiality is not absolute and may be breached
- Reduction in costs and increase in speed are adverse impacts of ICT on communication.
